

OUR STRENGTH IS YOUR SAFETY

PREVENT OBJECTS FROM FALLING

SAFETY BARRICADES

BLH STOP DROP™ SAFETY BARRICADING SYSTEM is an advanced plastic polymer barricading system designed to combat one of the world's most common causes of work place accidents; being hit by a falling object.

Key Properties of BLH Stop Drop™ Barricading

- ✓ No hot work permits required;
- ✓ No maintenance required;
- ✓ Fire rated, UV stabilised & wind rated;
- ✓ Corrosion & chemical resistant;
- ✓ Externally tested and certified & impact rated;
- ✓ Lightweight, reusable and easy to store;
- ✓ Suits permanent or temporary installations;
- ✓ Barricading System fits a variety of sizes and shapes of handrail;
- ✓ Innovative snap lock and clip on design requires no bolts or additional fasteners;
- ✓ Recyclable polymers used for a greener environment.

Adaptable to your workplace

BLH SAFETY SOLUTIONS™ provides dropped object prevention for many types of elevated work spaces.

Accidents happen everywhere, not just on walkways or platforms. The BLH STOP DROP™ SAFETY BARRICADING SYSTEM can protect your workers in many other places. Our solutions are suited for use on scaffolding as well as underneath stairways and on mezzanine flooring.

BLH STOP DROP™ SAFETY BARRICADING SYSTEM can be custom designed to suit your site conditions and has flexible options for allowing access, while still minimising the risk of dropped objects.
